Board of Commissioners Washington Parish Fire Protection District No. 5 Angie, Louisiana

I have compiled the accompanying financial statements and supplemental information, contained in Schedules I and II, as of and for the year ended December 31, 2008, for the Washington Parish Fire Protection District No. 5, a component unit of the Washington Parish Government, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. I have not audited or reviewed the accompanying financial statements and supplemental information, and accordingly, do not express an opinion or any other form of assurance on them.

The management's discussion and analysis and budgetary comparison information, on pages 2 through 7 and 20 through 21 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. I have compiled the supplementary information from information that is the representation of management, without audit or review. Accordingly, I do not express an opinion or any other form of assurance on the supplementary information.

I am not independent with respect to Washington Parish Fire Protection District No. 5.

Management's Discussion and Analysis

Introduction

Washington Parish Fire Protection District No. 5 is pleased to present its Annual Financial Report developed in compliance with Governmental Accounting Standard Board Statement No. 34, Basic Financial Statements - Management's Discussion and Analysis - For State and Local Governments (hereinafter referred to as GASB 34) and related standards.

The District's discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the District's financial activity, (c) identify changes in the District's financial position, (d) identify any significant variations from the District's financial plan, and (e) identify individual fund issues or concerns.

Since Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes, and currently known facts, please read it in conjunction with the District's financial statements.

Financial Highlights

- Total assets at December 31, 2008, were \$471,715, and exceeded liabilities by \$468,316 (i.e., net assets). Of total net assets, \$59,445 was unrestricted and available to support short-term operations, with the balance of total assets (\$408,871) invested in capital assets net of related debt.
- Revenues consist of ad valorem taxes, state revenue sharing and insurance proceeds. The
 total operating revenues, for the fiscal year ending December 31, 2008, was \$55,609
 representing an approximate increase of 1.44% from total revenues for fiscal year
 December 31, 2007 of \$54,817.
- The District's program expenditures, consisting of those expenditures resulting from the District's ongoing operations, increased by \$17,674 (33.48 %) over the program expenditures for fiscal year ended December 31, 2007.

The District had capitol assets purchased of \$7,600. There were five radios for \$3,500 and fire equipments of \$4,100.

Management's Discussion and Analysis

Overview of Annual Financial Report

Management's Discussion and Analysis (MD&A) serves as an introduction to basic financial statements and supplementary information. The MD&A presents an overview of management's examination and analysis of the District's financial condition and performance. The District's basic financial statements are comprised of three components: 1) government-wide statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in additions to the basic financial statements themselves.

Government-wide financial statements. The government -wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector businesses. These financial statements are reported using the full accrual accounting methods.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in nets assets may serve as a useful indicator of whether the financial position of the district is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The statement of net assets and the statement of activities display information about the District as a whole. These statements distinguish between those activities of the District that are governmental and those that are considered business type activities.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The modified accrual basis of accounting is used by the governmental funds.

Notes to financial statements. The notes to the financial statements provide required disclosures essential to the understanding of the financial statements. The notes present information about the District's accounting policies, significant account balances, and activities, commitments, contingencies, and subsequent events, if any. Supplementary information includes a comparative budget schedule.

Management's Discussion and Analysis

Financial Analysis

The purpose of financial analysis is to help determine whether Washington Parish Fire Protection District No. 5 is better off as a result of the current year's activities. In this analysis, data from two basic financial statements, the Statement of Net Assets, and the Statement of Activities and Changes in Net Assets, is presented below in condensed format. These statements report the net assets, the difference between assets and liabilities, and the change in net assets, which provides information for indicating the financial condition of the District. Following these statements is a separate schedule summarizing and analyzing budget changes for the current fiscal year.

Condensed Statement of Net Assets

Management's Discussion and Analysis

Capital Assets

At the end of the fiscal year December 31, 2008, the District had purchases of \$7,600 recorded in capital assets, less depreciation of \$21,556. Capital outlays are recorded as expenditures of the General Fund and as assets in the government-wide financial statement. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method and the following estimated useful life:

Fire Stations	40 years
Fire Trucks and Other Trucks	5-20 years
Equipment	3-10 years

Fixed assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated assets are valued at fair market value on the date donated. The cost of all assets acquired prior to 1989 has been valued using estimated historical cost.

The District purchased five radios for \$3,500 and fire equipments of \$4,100.

FUTUER ECONOMIC PLANS

The District management's approach is conservative. The board actively monitors revenues and expenses and evaluates the cost of all purchases and any proposed expansion projects. On November 4, 2008, the District passed a proposal for a 5mill property tax assessment upon the property owners of the District, subject to homestead exemption. Commencing in the year 2009 for the purpose of maintaining and operating the District's fire protection facilities, for purchasing fire trucks and other fire fighting equipment and any other lawful purpose of the Washington Parish Fire Protection District Number 5.

INTRODUCTION

The Fire Protection District Number Five of Washington Parish was created under the Louisiana Revised Statute 40:1496.12E. The District shall constitute a public corporation and as such shall have all the powers of public corporations, including perpetual existence and the right and power to incur debt and contract obligations, to sue and be sued, and to have a corporate seal. The District shall also be authorized to do and perform all acts in its corporate capacity and in its name, necessary and proper, for the purposes of acquiring, maintaining and operating buildings, machinery, equipment, water tank, water hydrants, water lines, and such other things as might be necessary or proper for effective fire prevention and control as considered necessary by the parish governing body of the District for the protection of the property within the limits of the District against fire.

The governing body of the parish shall appoint a five member board that shall perform all duties, functions, and powers responsible for the operation and maintenance of the District. All funds of the District shall be administered by the board. The board of commissioner members may be paid a per diem of fifty dollars for attending meetings of the board, and may be reimbursed any expenses incurred in performing the duties imposed upon them.

The District borders the Mississippi state line to the north, Pearl River to the east, 7th Ward line road to the south and Puspatappa Creek to the west in Ward 7 of Washington Parish, approximately 96 square miles. It serves approximately 2,400 people and several small businesses living and operating in the District. It operates two fire houses, one in Angie, Louisiana, and a second in Stateline, Louisiana, with a volunteer staff of fire fighters.

1. SUMMARY SIGIFICANT ACCOUNTING POLICIES

A. MEASUREMENT FOCUS AND BASIS OF ACCCOUNTING AND FINANCIAL STATEMENT

The District 's financial statements are prepared on the modified accrual basis in accordance with accounting principles generally accepted in the United States of America. The District applies all Governmental Accounting Standards Board (GASB) pronouncements as well as Financial Accounting Standards Board (FASB) statements and interpretations, and the Accounting Principle Board (APB) of the Committee on Accounting Procedures, Issued on or before November 1989, unless those pronouncements conflict or contradict with GASB pronouncements.

These financial statements are presented in conformance with GASB Statement No.34, Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments. Statement No. 34 established standards for financial reporting, with presentation requirements including a statement of net assets (or balance sheet), a statement of activities and change in net assets, and a statement of cash flows.

Notes to the Financial Statements (Continued) For the Year Ended December 31, 2007

B. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the Washington Parish Government is the financial reporting entity for Washington Parish. The financial reporting entity consists of (a) the primary government, parish council, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Washington Parish Government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

- 1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the parish council to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the parish council.
- 2. Organizations for which the parish council does not appoint a voting majority but are fiscally dependent on the parish council.
 - 3. Organizations for which the reporting entity's financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the parish council appoints a voting majority of the District's governing board and the parish council has the ability to impose its will on the District, the District was determined to be a component unit of the Washington Parish Government, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the parish government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

WASHINGTON PARISH GOVERNMENT ANGIE, LOUISIANA

Notes to the Financial Statements (Continued) For the Year Ended December 31, 2007

C. FUND ACCOUNTING

The District maintains its financial records on a fund basis, whereby a self-balancing set of accounts (Governmental Fund) is maintained that comprises its assets, liabilities, fund equity, revenues, and expenses. The general fund of the District accounts for all financial resources, except those required to be accounted for in other funds.

D. BASIS OF ACCOUNTING

The accompanying financial statements of the Washington Parish Fire Protection District NO.5 have been prepared in conformity with generally accepted accounting principles of the United State of America (GAAP) as applied to government units. The accompanying financial statements have been prepared in conformity with GASB-34. Under GASB-34, a statement of net assets and statement of activities are prepared which are presented on the accrual basis of accounting. The significant differences are capital outlay is reported as an asset and depreciated in the government-wide statement. Also long term obligations are recorded as liabilities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. With this measurement of focus, only current assets and current liabilities generally are included on the balance sheet in the fund statements. Long term assets and long term liabilities are included in the government-wide statements. Operating statements of governmental funds present increases (revenues), other financing sources, decreases (expenditures), and other financing uses are included in current assets.

The government-wide statement of net assets and statement of activities are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with operation of these activities are included on the statement of net assets.

The statement of net assets and statement of activities are presented on the accrual basis of accounting. Under this method of accounting exchange, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

Notes to the Financial Statements (Continued) For the Year Ended December 31, 2007

The modified accrual basis of accounting is used by the governmental funds. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. Effective for financial statements issued after June 30, 2000, GASB Statement 33, Accounting and Financial reporting for non-exchange transactions, defines a non-exchange transaction as a transaction whereby the government gives or receives value without directly receiving or giving equal value in return. Property taxes are imposed non-exchange revenues which result from assessments imposed on nongovernmental entities including individuals. Assets should be recognized when the government has an enforceable lien or legal claim to the resources, or the resources are received, whichever occurs first. Property tax revenues are recognized in the period when the district has a legal claim to However, for revenue to be recognized under the modified accrual basis, the the resources. measurable and available criteria must also be met. Governmental funds use the following practices in recording revenues and expenditures:

Revenues

Revenues are recognized in the accounting period they become available and measurable. Donations, fund raising net revenues and state revenue sharing is recorded when received. Ad valorem taxes become a lien against the assessed property on assessment date or levy date. Property taxes collected by the taxing authority, but not remitted to the District at year-end, are accrued in revenue and included in property tax receivable.

Expenditures

Expenditures are recognized in the accounting period when the fund liability is incurred.

E. BUDGETS

The District does not have a formal policy on adopting a budget. All appropriations lapse at yearend. The District at regular meeting on January 22, 2008 adopted the budget for the year ended December 31, 2008. The budget was not amended.

F. ENCUMBRANCES

The District does not use encumbrance accounting.

Notes to the Financial Statements (Continued) For the Year Ended December 31, 2007

G. CASH AND CASH EQUIVALENTS

Cash includes amounts in demand deposits and interest bearing demand deposits. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

H. PREPAID ITEMS

The District uses the allocation method of recording prepaid expenses.

I. CAPITAL ASSETS

Capital outlays are recorded as expenditures of the General Fund and as assets in the government –wide financial statement. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method and the following estimated useful life:

Fire Stations	40	years
Fire Trucks and Other Truck	20	years
Equipment	3-10	years

Fixed assets are valued at historical cost or estimated historical cost if actual cost was not available. The cost of all assets acquired prior to 1989 has been valued using estimated historical cost. Approximately 4.45% of total assets are valued at estimated historical cost. Donated assets were transferred from the Angie Volunteer Fire Department (organized prior to 1988 state legislature establishment of the District) and are valued at their original cost which approximates market value at the date donated.

J. COMPENSATED ABSENCES

The District does not have any paid employees; therefore, it does not have a formal leave policy.

K. LONG-TERM OBLIGATIONS

Long-term obligations are reported in the government-wide financial statement.

Notes to the Financial Statements (Continued) For the Year Ended December 31, 2007

L. FUND BALANCE RESERVE

Reserves

Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use.

Designated Fund Balances

Designated fund balances represent tentative plans for future use of financial resources.

M. NET CAPITAL

- Invested in capital assets, net of related debt This component of net assets consists of capital
 assets, including restricted capital assets, net of accumulated depreciation and reduced by the
 outstanding balances of any bonds or indebtedness attributable to acquisition, construction, or
 improvement of those assets. If there are significant unspent proceeds at year-end, the portion
 of the debt attributable to unspent proceeds is not included in the calculation of invested in
 capital assets, net of related debt. Rather, that portion of the debt is included in the same net
 asset calculation as unspent proceeds.
- Restricted this component of net assets consists of constraints placed on the asset use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or law or regulations of other governments or constraints imposed by law though constitutional provisions or enabling legislation.
- Unrestricted This component of net assets consists of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

NOTE-2 LEVIED TAXES

On November 3, 1992, the District passed a proposal for a 10mill property tax assessment upon the property owners of the District, subject to homestead exemption. The tax is for a period of 10 years commencing in the year 1993 for the purpose of maintaining and operating the District's fire protection facilities, for purchasing fire trucks and other fire fighting equipment and paying the cost of obtaining water for fire protection service. On July 19, 1997 the voters of the District passed a resolution, amending the original millage proposition, for the added purposes of purchasing real estate, buildings and/or construction of a fire station or fire stations.

Notes to the Financial Statements (Continued) For the Year Ended December 31, 2008

On November 4, 2008, the District passed a proposal for a 5mill property tax assessment upon the property owners of the District, subject to homestead exemption. Commencing in the year 2009 for the purpose of maintaining and operating the District's fire protection facilities, for purchasing fire trucks and other fire fighting equipment and any other lawful purpose of the Washington Parish Fire Protection District Number 5.
